PLATFORM

OF THE NATIONAL REPUBLICAN PARTY | PRINTING

[Adopted at Cincinnati, June 15, 1876.] When, in the economy of Providence, thi land was to be purged of human slavery, and when the strength of the government of the people by the people and for the people was to be demonstrated, the Republican party came into power. Its deeds have passed into his-tory, and we look back to them with pride. Incited by their memories and high aims for the good of our country and mankind, and the good of our country and mackind, and looking to the future with courage, hope and purpose, we, the representatives of the party, the National Convention assembled, make the following declaration of principles:

1. The United States of America is a nation not a league. By the combined working of the national and State governments, under

their respective constitutions, the rights of

every citizen are secured at home and protected 2. The Republican party has preserved these governments to the hundreith anniversary of the nation's birth, and they are now the embodiments of the great truths spoken at its cradie—"that all men are created equal; that they are endowed by their Creator with certain imalicinable rights, among which are life, lib-erty and the pursuit of happiness; that for the attainment of these ends governments have been instituted among men, deriving their just powers from the consent of the governed." Until these truths are che-rfully obeyed, or, if need be, vigorously enforced, the work of the Republican party is unfinished.

3. The permanent pacification of the Southern section of the Union, and the complete protection of its citizens in the free enjoyment of all their rights are duties to which the Re-publican party stands sacredly pledged. The power to provide for the enforcement of the principles embodied in the recent constitutional amendments is in the Congress of the United States, and we declare it to be the solemn obligation of the Legislative and Ex-ecutive Departments of the Government to

put into immediate and vigorous use all their constitutional powers for removing any just causes of discontent on the part of any class. causes of discontent on the part of any class, and for securing to every American citizen complete liberty and exact equality in the exercise of all civil, political and private rights. To this end we imperatively demand a Congress and a Chief Executive whose courage and idelity to these duties shall not falter until these results are placed beyond dispute or recall. 4. In the first act of Congress signed by President Grant, the National Government assumed to remove any doubts of its purpose to discharge its just obligation to public creditors. and solemply pledged its faith to make provi

sion, at the earliest practicable moment, for the redemption of United States notes in coin. Commercial prosperity, public morals and the national credit demand that this promise be fulfilled by a continuous and steady progress to specie payment.

5. Under the Constitution the President and 5. Under the Constitution the President and heads of departments are to make nominations for office, the Senate is to advise and consent to the appointments, and the House of Representatives is to accuse and prosecute faithless officers. The best interests of the public service demand that these distinctions be respected, and that Senators and Representatives, who may be judges and accusers. tatives, who may be judges and accusers, should not dictate appointments to office. The invariable rule for appointments should have reference to the honesty, fidelity and capacity

of the appointees, preferring friends of the party in power for places where harmony and vigor of administration require its policy to be represented, but permitting all others to be filled by persons selected with sole reference to the efficiency of the public service and the right of all citizens to share in the honor of rendering faithful service to their country.

6. We rejoice in the quickened conscience of the require concerning political affairs and will the people concerning political affairs, and will hold all public officers to a rigid responsibility, and engage that the prosecution and punish-ment of all who betray official trusts shall be

speedy, thorough and unsparing.
7. The public school system of the several
States is the bulwark of the American Repub-States is the outwark of the American Repub-lic, and, with a view to its security and perma-mence, we recommend an amendment to the Constitution of the United States forbidding the application of any public funds or prop-erty for the benefit of any schools or institutions under sectarian schools

8. The revenue necessary for the current ex-penditures and the obligation of the public debt must be largely serived from duties on importations, which, so far as possible, should be adjusted to promote the interest of Ameri-can labor and advance the prosperity of the

can later and advance the presperity of the whole country.

9. We reaffirm our opposition to further grants of the public lands to corporations and monopolies, and demand that the national domain be devoted to free homes for the people.

10. It is the imperative duty of the Government to modify existing treaties with European Governments, that the same protection shall be afforded to the adorted American Minimum. be afforded to the adopted American citizen that is given to the native born, and that all necessary laws should be passed to protect immigrants in the absence of power in the States for that purpose.

11. It is the immediate duty of Congress to investigate the effect of the immigration and

importation of Mongolians upon the moral and material interests of the country. 12. The Kepublican party recognize with ap-proval the substantial advance recently made toward the establishment of equal rights for women, by the many important amendments effected by Republican Legislatures in the laws which concern the personal and property relations of wives, mothers and widows, and by the appointment of women to the superin-tendence of education, charities and other hub-lic trusts. The honest demands of this class of citizens for additional rights and privileges and immunities should be treated with respect-

ful consideration.

13. The Constitution confers upon Congress 13. The Constitution conters upon Congress sovereign power over the Territories of the United States for their government. In the exercise of this power, it is the right and the duty of Congress to prohibit and extirpate in the Territories that relic of barbarism, polygamy, and we demand such legislation as shall secure this end and the supremacy of American institutions in all the Territories.

14. The righters which the nation has given 14. The pledges which the nation has given to our soldlers and sailors must be fulfilled. The grateful people will always hold those who periled their lives for the country's preservation in the kindest remembrance.

15. We sincerely deprecate all sectional feeling and tendencies. We therefore note with deep solicitude that the Democratic party counts as its chief hope of success on the electoral vote of a united South, secured through the efforts of those who were recently arrayed against the nation; we invoke the carnest attention of the country to the grant. earnest attention of the country to the grave truth that a success thus achieved would open sectional strife and imperil the national honor and human rights.

16. We charge the Democratic party as

being the same in character and spirit as when it sympathized with treason; with making its control of the House of Reprensentatives the triumph and the opportunity of the nation's recent foes; with reasserting and applauding in the National Capitol the sentiments of un-repented rebellion; with sending Union soldiers to the rear and promoting Confederate soldiers to the front; with deliberately pro-posing to repudiate the plighted faith of the Government; with being equally false and imbecile upon the overshadowing financial question; with thwarting the ends of justice by its partisan mismanagement and obstruc-tion of investigation: with proving itself, through the period of its ascendancy in the

Lower House of Congress, utterly incompetent to administer the Government. We warn the country against trusting a party thus alike unworthy, recreant and incapable. 17 The National Administration merits commendation for its honorable work in the management of our domestic and foreign affairs, and President Grant deserves the conthrued and hearty gratitude of the American people for his patriotism and immense services in war and in peace.

From its use many an afflicted sufferer has been restored to perfect health, after having expended a small fortune in procuring medical advice and obtaining poisonous mineral iedicines.
It is now justly remarked by all classes of people of Veretine holds a higher position in the estimates and veretine holds a higher position in the estimates. It is now justly remarked by all classes of people that Vegetine holds a higher position in the estimation of the public than any other medical compound and it has won its great reputation and inmense demand from actual merit.

Its medical properties are Alterative, Tonic, Solvent and Diuretic. There is no discase of the human system for which the Vegetine cannot be used with perfect safety, as it does not contain any metallic or poisonous compound. It is composed exclusively of barks, roots and herbs; it is very pleasant to take every child likes it. It is safe and reliable, as the following evidence will show:

VALUABLE EVIDENCE.

The following unsolicited testimonial from Re Q. T. Walker, D. D., formerly pastor of Bowdo Square Church, Boston, and at present settled Providence, R. L., must be deemed as reliable et dence. No one should fail to observe that this test monial is the result of two years' experience with the use of Vegetine in the Rev. Mr. Walker's far

A Walking Miracle.

Mr. H. R. Stewers:

Dear Nit: Though a stranger, I want to inform you all earther has fone for me.

Let the straine has fone for me.

I want to earther has fone for me.

My system—largely running ulcers appearing on me, as follows: One on cach of my arms, one on my thigh, which extended to the seat; one on my head, which extended to the seat; one on my left leg, which became so had that two physicians came to amputate the limb, though upon consultation concluded not to do so, as my whole body was so full of Scrofula; they deemed it advisable to ext. the sore, which was painful beyond description, and there was a quart of matter run from this one sore.

The physicians all gave me up to die, and said they could do no more for me. Both of my lega were drawn up to my seat, and it was thought if I did get up again I would be a cripple for life.

When in this condition I saw Vegetine advertised, and commenced taking it in March, and followed on with it until I bad used sixteen bottles, and this morning I am such as youngh corn, a well man. Around walking and working.

In conclusion, I will add when I was enduring such great suffering from that dreadful disease. Scrofula, I prayed the Lord above to take me out of this world, but as Vegetine has restored to me the blessings of health, I desire more than ever to live, that I may be of some service to my fellow-men, and I know of no better way to aid suffering humanity than to inclose you this statement of my case, with an earnest hope that you will publish it, and it will afford me pleasure to reply to any communication which I may receive therefrom.

I sm, sir, very respectfully, ILLIAM PAYN, Avery, Bernien Country, Mich. 2

Mr. H. R. Stevens:

Dr. Ar Sin: I will most cheerfully add my testimony to the great number you have already received in favor of your great and good medicine, Vegetine, for I do not think enough can be said in its praise, for I was troubled over thirty vears with that dreadful discase, Catarrh, and had such bad coughing spells that it would seem as though I could never breathe any more, and Vegetine has cured me; and I do feet to thank God all the time that there is so good a medicine as Vegetine, and I also think it one of the best medicines for coughs and weak, sinking teelings at the stomach, and advise everybody to take the Vegetine, for I can assure them it is one of the best medicines that ever was.
